Education

University of California, San Diego

La Jolla, CA

BS in Data Science, Double Minor in Business Analytics & Finance

Sep 2023 – Present (Expected March 2027)

- GPA: 3.98
- **Coursework:** Systems for Scalable Analytics, Business Finance, Product Marketing and Management, AI: Probabilistic Models, ML: Learning Algorithms, Information Technology, Multivariate Calculus, Linear Algebra

Professional Experience

AI & Data Science Team Intern

La Jolla, CA

Scripps Research Translational Institute

Jun 2024 - Dec 2025

- Exploratory data analysis and statistical modeling of electronic health data for research with NIH gov. program
- Improved accuracy of diagnosis extraction by 25%, up to 95%, on 60k hospital cases automated with data pipelines
- Worked across various department teams, publicly presenting key findings to technical & nontechnical stakeholders
- Supported decision making in digital health with predictive modeling and proposed new ideas for initiatives

Undergraduate-Graduate Economic Research Assistant

La Jolla, CA

UCSD Department of Economics

Jun 2025 - Present

- Collaborated with PhD candidate to extract and transform cryptocurrency data to identify performance trends
- Synthesized 8+ years of stock index Excel spreadsheets into ad-hoc analysis for well-documented reports
- Deliver accurate solutions with web scrapping of 600k+ digital currency transactions for policy-driven insights

Projects

Supporting ED clinical decisions using multimodal ECG AI

- Optimized and validated emergency department diagnosis dataset with large language models and cross-functional collaboration with healthcare experts, improving understanding of software development best practices
- Prompt engineering and secondary analysis on impact of 10+ LLM models (Qwen, Gemma) for ethical AI solutions
- Began using AI frameworks with an ECG foundation model base towards multi-modal AI tool for clinical use

Is Your Heart Racing?

[Github Page](#) 

- Accomplished *Best Project (Top 5%)* among 300+ participants for data storytelling, by leading front-end development and managing an interactive surgical heart-rate visualization dashboard
- Learning opportunity for data-driven problem-solving & communication of complex data in fast-paced environment

Pregnancy in All of Us

- Conducted research with NIH's All of Us program with pre-processing and visualizing data records of 31k participants and assessment of machine learning and deep learning model performance
- SQL querying of healthcare database for feature engineering & selection and model training to analyze sleep trends

Skills

Programming Languages & Libraries: Python, Java, SQL, R, JavaScript, PyTorch, pandas, scikit-learn, NumPy

Visualization & Technical Tools: Tableau, Azure, MS Excel, Gen AI, Power BI, Git, PyTorch, Microsoft Office

Leadership & Activities

Halicioğlu Data Science Institute Student Council

- Oversee internal operation planning activities & facilitate communication & logistics between faculty and students
- Lead workshops and mentorship programs as a flexible team member to foster an engaged data science community

Eta Kappa Nu (IEEE-HKN)

- Member of independent honors society founded in 1904 to recognize high-achieving engineering majors
- Perform outreach and a variety of tasks across local primary schools to build professional development
