

JASON LIU

+1 (408) 532-3339 | jal134@ucsd.edu | jasonb.liu2005@gmail.com

Education

University of California, San Diego | B.S in Data Science

Current Second Year | GPA: 3.975

Research Interests: Artificial Intelligence, Machine Learning, Data Science, Computer Science

Experience

NDA - Internship with AI Company

June 2022 - December 2022

- Collaborated with a stealth-mode AI startup, gaining hands-on experience in data annotation and transformation to support advanced machine learning initiatives
- Developed a comprehensive tiered terminology for dataset components
- Learned how to parse, ingest, and label data into a database
- Designed and implemented an automated script for data ingestion and formatting, which reduced manual entry errors and streamlined workflow

Board Member - Data Science Student Society at UCSD

October 2024 - Current

- Student organization at UC San Diego centered around Data Science for undergraduate students
- Current working in a subcommittee within the board to host an upcoming Hackathon in Spring
- Participate in weekly board meetings
- Communicate with sponsors to obtain funding for Hackathon

Board Member - The Catalyst at UCSD

October 2024 - Current

- Student organization focusing on helping support and publish undergraduate research with 2 volumes published
- Participate in weekly board meetings
- Responsible for updating and maintaining website as official webmaster

Quarantutors

July 2022 - August 2022

- Led a virtual introductory calculus course for upcoming students twice a week
- Designed and created a comprehensive curriculum, including syllabi, class slides, and homework assignments
- Hosted office hours for students to provide personalized support, fostering an engaging learning environment

Skills

Languages: English (Native), Chinese (Skilled)

Data Skills: Scikit-Learn, Pandas, Data Visualizations, Statistical Analysis, Data Cleaning

Programming Languages: Python, Javascript, Java, HTML
