

Jayani Sri Nandika Duggirala

nandikadjs@gmail.com | linkedin.com/in/jayani-duggirala-9b2218241 | github.com/JayaniSND

EDUCATION

University of California, San Diego

Bachelor of Science in Computer Science

La Jolla, CA

2025-2028

Coursework: Object-Oriented Programming, Data Structures & Algorithms, Linear Algebra, Probability & Statistics, Calculus

EXPERIENCE

CSE Society (CSES) @ UCSD | *Researcher & Developer – ORCA*

Oct. 2025 – Present

- Investigating state-of-the-art literature and research on Audio Transcription to design improve deep learning architectures for ORCA (Orchestration and Recognition for Composition and Arrangement), an AI-assisted music recognition and creation tool.

Women in Computing (WIC) @ UCSD | *Full Stack Web Developer – Matchstick*

Oct. 2025 – Present

- 1st place project in WIC's Fall Project Teams, 2025 Theme: Education.
- Built a Full-Stack Web App (Matchstick) that connects students for study sessions based on class schedules and location.
- Programmed the Dashboard and Find Match pages using **JavaScript**, implementing logic that filters peers by their courses.
- Led the ideation and development within a team of 5, delivering a solution that incentivizes study habits through a gamified points system (Flames), Pomodoro timers, and suggests study spots on campus.

PeopleSense.AI | *Perceptorship (Research & UI/UX)*

June 2024 – July 2024

- Led a student research team in exploring and presenting advanced AI concepts, specifically analyzing **Transformer Neural Networks**, **Deep Learning** architectures, and **PCR** data handling techniques.
- Synthesized the technical research into accessible presentations to facilitate knowledge sharing among peer developers.
- Designed high-fidelity mockups for the mobile interface using **Figma**, focusing on intuitive navigation and visual consistency.

SkillsUSA | *Chapter President Folsom, CA*

May 2023 – Aug. 2025

- Spearheaded chapter operations for 130+ members, successfully elevating the chapter's national ranking from Bronze (2024) to Silver Chapter of Excellence (2025) through strategic planning and member engagement.
- Designed and executed professional development workshops, including "Conflict Management in the Workforce" and "Resume Revision" to enhance members' soft skills and employability.
- Managed the 2026 leadership succession by interviewing and selecting future officers with high resilience and strategic vision.
- Produced a library of educational video tutorials to simplify competition preparation and streamline officer onboarding.

PROJECTS

Rain, Deforestation Awareness App & Community Work | *Java, Figma, Android Studio*

Sep. 2024 – Dec. 2024

- 1st Place and a \$2,000 Award @ SMUD Youth Energy Summit out of 80+ Participants.
- Developed the complete UI / concept of a mobile application with **Figma** & implemented functionality using **Java**.
- Hosted Paper-Recycling / Paper-Making Workshops for elementary school children, and high school presentations.

Graph Theory Animations | *Python, Manim (CE), Science Communication, Algorithms*

March 2024 – Dec. 2024

- Developed programmatic animations using the **Manim CE** Python library to visualize the traversal of Dijkstra's Algorithm.
- Created an educational video using these animations for the Science Ambassador 2025 program. [Dijkstra's Algorithm](#)

AWARDS

CIF D1 SJS Section Champion 2022, 2024 (top among 206 HS) | *#1 Singles Tennis*

USTA Tyler Nii Award 2024

TECHNICAL SKILLS

Languages: Java, Python, HTML/CSS, Javascript, RobotC

Frameworks: TensorFlow, PyTorch, Transformer Neural Networks, Deep Learning

Developer Tools: GitHub, Figma & Prototyping, Android Studio, Kubernetes, Docker, Jupyter, Photoshop
