Education

UC San Diego

Expected Graduation: May 2029

Bachelor of Science, **Mathematics & Computer Science**

Coursework: Multivariable Calculus, Data Structures & Algorithms, Linear Algebra, Systems Programming

Experience

Hack the Hood

Aug 2024 - Dec 2024

Data science Intern, Oakland CA

- Collaborated with tech mentors and industry professionals to analyze real-time trends among local datasets
- Designed and documented **data cleaning pipelines**, improving dataset accuracy by 60%.
- Explored the intersection between social justice and data science through a series of equity based projects

UCSF AI4ALL

Jun 2024- Jul 2024

Machine Learning Research Intern, *San Francisco, CA*

- Used **Pytorch** to develop a Convolutional Neural Network which analyzed chest X-rays, significantly improving the detection of tuberculosis.
- Collaborated with a team of 4 interns to enhance ML model efficiency, and accuracy, resulting in a 94.9% detection accuracy.
- Presented findings to various professors and industry professionals in an online symposium

STEM-E Youth Career Development Program

Oct 2024 - Jun 2025

Full stack developer, *San Francisco, CA*

- Developed a scalable tutor app, combining **front-end interfaces and back-end systems** to enhance user experience and support educational goals amongst underprivileged communities
- Wrote **project documentation** and a simple client maintenance guide to ensure long-term usability.

Robotics For All

Jun 2024 - Jun 2025

Lead Coding Instructor, *San Francisco CA*

- Designed and taught engaging **programming and robotics curricula** to diverse groups of 8-10 students, aged 6-12, fostering an environment of curiosity and innovation.
- Fostered strong relationships with parents and students by providing clear, timely updates and addressing concerns, ensuring exceptional satisfaction and engagement with the program.

Volunteering

Westmoor High School Service Commission

May 2023 - May 2025

Squad Leader

- Participated in a student run organization focused on volunteering at school and community events
- Led a team of 12 members, managing and tracking their assigned volunteer duties and hours.
- Helped organize 10+ volunteer events within our school community, facilitating communication between volunteers and event organizers, streamlining logistics and increasing volunteer turnout by 30%.

Awards

Valedictorian, Westmoor Highschool

May 2025

AP Scholar With Distinction, College Board

July 2024 & July 2025

Emerging Tech Star Award, Hack The Hood

Feb 2025

Technical Skills

Languages: Python, Java, JavaScript, HTML/CSS, C/C++

Frameworks: Pytorch, Pandas, Scikit-learn, Matplotlib, Seaborn, Beautiful Soup, Flask, FastAPI, Django, OpenCV, NumPy

Tools: Powerpoint, Excel, Google Docs, VS Code, Github, Google Colab, Canva
