

SUMMARY

I bring a friendly and approachable demeanor and thrive in collaborative environments. With exceptional computer skills and a strong foundation in mathematics, science, and other academic disciplines, I am a well-rounded and ambitious student. Through my educational journey, I have developed advanced research, time management, and problem-solving abilities. I am confident in my capabilities across a wide range of areas and am eager to apply my knowledge and skills to support growth, innovation, and meaningful knowledge-sharing initiatives.

Education

University of California, San Diego

Class of 2027**GPA: 3.45**

- Sophomore (Senior Standing)
- Major: Data Science
- Minor: Business Analytics
- Expected Graduation Year: 2027
