

NIKHITA KADAM

San Diego, CA • nkadam@ucsd.edu • 510-396-8264 • [LinkedIn](#) • U.S Citizen

EDUCATION

University of California, San Diego - Bachelor of Science in Data Science

La Jolla, CA

3.78 GPA Expected Graduation: Jun 2029

- Relevant Courses: Principles of Data Science (Statistical Analysis & Predictive Modeling with Python), Calculus for Engineering, Basic Data Structures for Data Science (Object Oriented Programming-Python)

American High School

Fremont, CA

3.98 GPA (unweighted) Graduation: Jun 2025

- Relevant Courses : AP CS (Java), AP Stats, AP Physics 1: Mechanics, AP Physics C: Electricity and Magnetism, AP Macroeconomics
 - Secretary (AHS GFX Graphic Design Club), Activities Commissioner (Class of 2025 Student Council), French Honors Society
-

PROFESSIONAL EXPERIENCE

AUDUX Labs | Software Development Intern

Jul 2025 - Sep 2025

- Built and tested Python scripts in Google Colab, applying core data structures and algorithmic logic to solve coding challenges in a professional development environment
- Debugged & optimized existing codebases to improve computational efficiency, strengthening skills in logic flow and error handling
- Implemented machine learning models including TensorFlow neural networks, KNN classifiers, and linear and logistic regression to analyze Kaggle datasets and evaluate predictive performance

PurpleKoru | Marketing Intern

Jun 2024 - May 2025

- Spearheaded development of a new product catalog for SantaAnimals, a startup subsidiary, expanding the product range to 121 SKUs including complementary accessory lines
- Conducted competitive and pricing analysis across 10 suppliers to compare costs and market position, using data and negotiation to secure 5 strong partnerships and improve sourcing strategy and margins
- Contributed to generating 135 sales with a perfect 5-star review record by refining product listings and supporting catalog growth from initial launch to a full product storefront

Best Brains | Part-Time Teacher

Oct 2023 - Sep 2025

- Instructed 40+ elementary and middle school students in math and English over 2 years, developing individualized learning
 - Communicated student progress to parents through weekly detailed reports, identifying areas of improvement and practice
-

PROJECTS

Distracted Driver Detection AI | Inspirit AI Scholars Program

2024

- Designed and trained a machine learning model to detect distracted driving behaviors, achieving satisfactory classification accuracy by analyzing images using neural networks, KNN, and decision trees
- Evaluated 3 algorithm approaches in Google Colab to identify the highest-performing model, improving accuracy through iterative tuning and feature optimization

Peet's Coffee Rebranding Strategy | Stanford Summer Institutes: Strategic Marketing

2023

- Developed a rebranding strategy for Peet's Coffee targeting Gen Z consumers by building 5 customer personas, crafting a new value proposition, and conducting competitive analysis across 5+ major coffee brands
 - Presented a comprehensive market strategy covering product positioning, brand identity, and advertising strategy to 25+ peers and Stanford faculty, receiving recognition for innovative strategic approach
-

LEADERSHIP

Professional Events Board Member | DS3 Society @ UCSD

Oct 2025 - Present

- Organized networking events, internship panels, and professional development workshops for DS3 Society, engaging 80+ students and fostering career readiness across all events
- Coordinated outreach w/UCSD faculty, staff, and industry professionals to connect students with career & networking opportunities

Envision Board Web and Design Team Member | Society of Women Engineers (SWE) @ UCSD

Oct 2025 - Present

- Developed a refreshed visual identity including a new logo and redesigned website pages for SWE's Envision 2026 conference, a STEM career exploration event reaching 200+ high school girls across California

Social Media Director | Swab4USA

Apr 2023 - Aug 2024

- Expanded social media engagement to 300+ followers in under a year through an informational website and 10+ social media posts
 - Increased donor registrations by 50+ individuals across 15 volunteer-led bone marrow drives by directly recruiting participants and coordinating on-site outreach efforts, increasing the pool of potentially life-saving matches for patients
 - Managed social media content reaching a combined audience of 2500+ followers across 12 regional branches in the SF Bay Area
-

SKILLS

Technical: Python, Java, TensorFlow, Machine Learning (KNN, neural networks, linear & logistic regression), Pandas & DataFrames, statistical modeling, Jupyter Notebooks

Design & Tools: Canva, Procreate, WIX website design, social media content strategy (Instagram, TikTok)

Languages: English, Hindi, French (California Seal of Biliteracy)
