EDUCATION

University of California San Diego

Expected Jun 2027

Bachelor of Science in Mathematics-Computer Science

Bachelor of Science in Cognitive Science | Specialization in Machine Learning & Neural Computation

- GPA: 3.5/4.0; Provost's Honors (3x)
- Minor: Economics

San Diego Miramar College

Aug 2023 – May 2024

Associate of Arts for Transfer in Economics

- GPA: 4.0/4.0; Highest Honors

Relevant Coursework: Data Science in Practice, Systems Programming, Unsupervised Machine Learning, Optimization, Large Language Models, Discrete Mathematics & Graph Theory, Econometrics, Data Management

PROFESSIONAL EXPERIENCE

Undergraduate-Graduate Research Lab | Research Assistant

Jan 2025 – Present

- Assisted PhD candidate Ida Grigoryeva in building a database pipeline of real-time violent events in Rio de Janeiro, Brazil.
- Collaborated on a web scraping script (using Python and the BeautifulSoup4 and Selenium libraries) to scrape over 1,000 historical violence-related articles.
- Coded an in-depth classification script to identify the violence type from scraped article metadata and mapping it onto a heat map using Python and GeoPy.

Design for America | UX Designer

Jan 2025 – Apr 2025

- Completed a 10-week human-centered design program (IDEA), applying design thinking methodologies to define a problem statement and design a meaningful solution for a nonprofit." and "Conducted key design research (heuristic evaluations, user personas, empathy maps) and utilized collaborative ideation (group brain-writing) to develop wireframes and hi-fi prototypes developing hi-fi prototypes.

Undergraduate-Graduate Research Lab | Research Assistant

Nov 2024 – Dec 2024

- Built a comprehensive dataset from 100+ Federal Reserve survey releases (SPD/SMP)
- Extracted key economic indicators from over 1,000 data points using Python libraries such as PyPDF2
- Designed a scalable data framework enabling comparison across 10+ years of survey data.
- Streamlined data processing to prioritize 4 critical variables, supporting macroeconomic research and policy analysis.

Home Start, Inc. | Tax Intern (VITA)

Dec 2023 – Apr 2024

- Provided federal and state tax preparation services to clients with income <\$64,000 1:1
- Answered tax-related questions and referred taxpayers to appropriate resources
- Accurately documented W-2s, 1099s, 1040s, and processed files for quality reviews
- Maintained client confidentiality and adhered to IRS protocols
- Utilized TaxSlayer Pro to assist with 30+ returns
- Successfully guided clients in maximizing rebates with credits, with those eligible receiving over \$7000
- Attained a score of 91.4% on the IRS Basic Exam

SKILLS & INTEREST

Technical Skills: SQL | Python | Javascript | HTML5/CSS3 | Java | R | VBA | STATA | Tableau | AWS

Certifications: Stanford Machine Learning Specialization | AWS Certified Cloud Practitioner
