

SUMMARY

As a UCSD sophomore in Applied Math who's interested in numerical analysis, data science, machine learning, mathematical biology, and much more, I hope you'll find my skills and experience to be fitting for the exciting position I'm applying for.

EDUCATION

University of California – San Diego

Applied Mathematics B.S.

Expected June 2028

- Completed the three-course Honors Calculus Series with a 3.74 cumulative mathematics GPA
- Currently enrolled in Numerical Analysis
- Completed Computer Science courses in Python and Java with a cumulative CS GPA of 4.0
- Currently enrolled in Python-based data science course
- Current GPA is 3.81

Redwood High School

June 2024

- Crew member of Redwood TV for 3 years
 - Final academic weighted GPA was 4.19
-

EXPERIENCE

Partnership 42 LLC, San Rafael, CA

May 2021 - November 2023

Greenhouse Gas Emissions Accounting

- Logged over 5,500 cells worth of lawn mower hours from scanned paper to spreadsheets, which was found to be error-free

Practical Martial Arts, Corte Madera, CA

June 2023 - August 2023

Martial Arts Instructor

- Taught the beginner and intermediate martial arts classes on Tuesdays and Thursdays, which typically had 10 to 25 students in them aged 6 to 15
- Directed activities like warm-ups and drills, taught techniques by repeated demonstration, worked one-on-one with students, and oversaw game time at the end of class
- Always gave every student at least 2 or 3 pointers to improve their technique in each class

Pointercrate.com

October 2021 - March 2023

Video Production Crew Member

- Organized and worked with an asynchronous online team to produce monthly Community News updates for the Geometry Dash Demonlist
 - Contributed to the scripting, voicing, and editing of such updates
-

SKILLS & ACTIVITIES

- Second-degree black belt at Practical Martial Arts
 - First student in my instructor's 35 years of teaching to skip to the rank of youth black belt
 - Blue belt in Brazilian Jiu Jitsu
 - Have competed in multiple tournaments.
 - Magic: The Gathering
 - I can program in Python and Java
 - Built my own computer which has given me skills in troubleshooting computer hardware and software
 - I have a strong foundation in Linear Algebra
 - Responsible for my own bills and finances
 - Manage my own budgeting
 - Started my own Fidelity investment account
 - Licensed driver with no accident/ticket history
-
