EDUCATION

University of California, San Diego	Sep 2025 - Present
Bachelors of Science, Data Science (Expected 2028)	
Alameda High School	Aug 2021 - Jun 2025
GPA: 4.5/4.0	
Honors: AP Scholar with Distinction Award (2024)	

RELEVANT EXPERIENCE

Data Science Student Society (www.ds3atucsd.com)	
1st Place DinoCage: “Next Up: Predicting NBA G-League Call-Ups”	Oct 2025 - Dec 2025
- Developed a data analysis and machine learning model that predicts NBA call-ups using Python, Pandas, and scikit-learn - Integrated contextual variables beyond player stats to improve predictive accuracy and interpretability - Built visual dashboards and data stories to translate complex model results for non-technical audiences - Collaborated with multidisciplinary team through GitHub version control and agile workflows for a clear, scalable, and user-focused design	
TalentLens: NLP Talent Discovery Platform for Recruiters	Jan 2026 - Present
- Designed an end-to-end NLP pipeline to convert unstructured resumes and GitHub data into searchable candidate profiles - Built automated PDF parsing and GitHub metadata ingestion pipelines for structured text extraction - Engineered TF-IDF vector representations and cosine similarity ranking to match recruiter queries to candidate profiles - Developed a ranked retrieval system with transparent scoring for sponsor-facing talent discovery - Evaluated search relevance using top-k precision and manual validation to refine ranking quality	
1st Place Hard Hacks Hackathon - DigiKey Track	Jan 2026
- Led development of a smart home IoT system integrating sensors, microcontrollers, and real-time automation logic - Designed and wired hardware components using DigiKey-sourced parts for environmental monitoring and device control - Implemented embedded firmware to process sensor input and trigger automated home responses - Built a modular smart-home architecture enabling lighting, temperature, and interaction simulation	
IslandHacks (www.island-hacks.org)	Oct 2022 - Aug 2025
Lead Organizer, member of founding team	
- Organized student-led hackathons for 200+ participants from across the Bay Area - Secured \$30k+ in sponsorships, managed relationships with industry partners - Led cross-functional team in logistics and marketing, developed website, and managed participant communications - Promoted hands-on CS engagement for beginners through workshops and mentorship	
ELD Taskforce (English Language and Development)	Mar 2023 - Sep 2025
Founder & Director	
- Established a school support program for 180+ refugees, immigrants, exchange students, and English learners - Recruited, trained, and coordinated a team of 60+ multilingual peer tutors - Received recognition from Alameda Unified School District, with positive reviews from students and faculty - Practiced leadership, outreach, and community coordination	

ADDITIONAL EXPERIENCE

Women’s Tennis Team Player - Varsity Doubles, JV Captain	Aug 2022 - Dec 2024
Orchestra & Jazz Band - Cellist & Percussionist	Aug 2022 - Jun 2025

SKILLS

Professional Skills: Event Planning, Project Management, Digital Design, Public Speaking, Team Management, Outreach
Technical Skills: Python, GitHub, Pandas, NLP, NumPy, Matplotlib, SKLearn, TF-IDF, Canva, Jupyter Notebook
Languages: English, Mandarin, Cantonese, Korean (elementary proficiency)
