Education

University of California, San Diego

B.S. Cognitive Science spec. Machine Learning Neural Processing; B.S. Data Science
Coursework Interest: Natural Language Processing, Neural Processing, Machine Learning

La Jolla, CA
Expected
June 2029

Westmont High School (Concurrently West Valley Community College)

Relevant Coursework: Digital Electronics, Engineering Capstone, Python Programming, AP Computer Science A, AP Spanish Language, AP English Language

Campbell, CA
June 2025

Relevant Experience

Data Science Student Society (DS3 at UCSD)

La Jolla, CA
Sep 2025 – Present

Marketing Board Video Production Coordinator

- Plan, produce, edit, and refine video content for DS3's social media pages to promote organization events while increasing club visibility and involvement among DS3's **5000+** social media followers and **300+** on campus members.
- Collaborated cross-functionally with other divisions of DS3 to coordinate media

Co-Developer of *SayStroop*

Sep – Dec 2025

- Contributed to developing *SayStroop*, a web-based platform that tested the Stroop effect among users using voice activity detection and recognition.
- Optimized data, performed data analytics, and created data visualizations for presentation.
- Presented findings to UCSD faculty and industry professionals at DS3's DinoCage showcase.

Professional Experience

Mathnasium

Math Instructor

Santa Clara, CA
Aug 2024 – July 2025

- Provided math tutoring for **50+ students** from kindergarten up to ninth grade, personalizing each student's instruction through pedagogical training while maintaining a friendly and inclusive environment throughout.
- Average student test scores in Math improved by 15+ percent.
- Filed daily progress reports for each student.

Leadership & Activities

FlexFactor Engineering Program/Competition

Oct 2024 – Feb 2025

- Participated in a program orientating around FHE technology development through a Capstone product development project incorporating hardware design, business model creation, and scientific research, culminating in a final product competition.
- Researched causes of algae blooms in freshwater bodies of water and ways to mitigate their effects. Finalized a concept product that regulates algal activity through aquatic aeration and nutrient release.
- Pitched final product to a panel of judges and industry experts, placing **second out of 50+ teams**.

Project Lead the Way

Aug 2023 – June 2025

- Took part in an engineering focused program, taking courses in digital electronics and engineering design/development.
- Created a capstone project with a business model of a bag that helped users remember items using weight sensors.
- Presented my product to **100+ people** at a district engineering expo.

Linguistics Club President

Aug 2023 – June 2025

- Conducted independent linguistic research on morphology, phonology, orthography, and linguistic relativity.
- Hosted language exchanges and language-learning workshops, presented biweekly meetings to 25+ club members, facilitated activities for participants
- Managed **online and on-campus outreach** to new and returning members; processed club-related administrative documentation; designed engaging presentations.

Skills & Interests

Technical: Python, Intermediate Java, Adobe Premier, Canva, Intermediate Circuit Design/Boolean Logic

Awards: FlexFactor Competition (2025), California Seal of Biliteracy (2025), AP Scholar with Distinction (2024)

Interests: Linguistics, Language Learning, Hiking, Cooking, Rhythm Games

Languages: English, Spanish, Cantonese, Swedish
