## EDUCATION

**University of California - San Diego**, *B.S. in Data Science, Planned B.S in Bioinformatics* **September 2025 - May 2028**

- **Relevant Courses:** Principles of **Data Science**, Discrete Mathematics, Systems Programming in **C** and Software Tools

**Aliso Niguel High School**, 3.98/4.00 UW GPA

**August 2021 - June 2025**

- **Relevant Courses:** AP Computer Science A (5), AP CS Principles (5), AP Physics C: Mechanics (5), AP Calculus BC (5)
- **Dual Enrollment:** AWS Cloud Foundations, **Linux** Networking, Intro to **R**, Programming Concepts in **C++**

## PROFESSIONAL EXPERIENCE

**CEO Leadership Alliance Orange County**, *Student Intern*

**June 2024 – August 2024**

- Worked with Dr. Linstead and team from Chapman University to develop an AI-powered **player-tracking system for football** using computer vision, combining **OpenCV**, **CVAT**, and **YOLO** frameworks to analyze game footage.
- Innovated a **bird's-eye-view** mapping technique using yard lines as coordinate anchors, enhancing precision in player localization and contributing to the project's prototype success.
- Extracted video frames at 30 FPS and labeled players using CVAT, leveraging field markings as spatial references to calculate **real-time player positions** on the field.

**TeachTap**, *Quality Assurance Tester*

**October 2023 – December 2023**

- Evaluated the beta iOS version of TeachTap, a TikTok-style educational app helping high school students prepare for **SAT and AP exams** through short, AI-generated lessons.
- Tested and validated app functionality, identifying and reporting **20+ software bugs** and **UI issues** through detailed screenshots, video recordings, and written feedback.
- Proposed new features like **AI chatbots** and **unique question formats** including Rapid Fire Questions and mini AP FRQ simulators to foster critical thinking and **verified course content** for factual accuracy.

**Elite Tech Info**, *Intern*

**May 2023 – August 2023**

- Developed a POC AI-powered **ECG classification system** to identify **abnormal cardiac patterns** with a focus on early detection and diagnosis of heart disease.
- Extracted critical **biometric features**, including **Heart Rate Variability (HRV)** and **R-R intervals**, enabling the model to recognize subtle variations in cardiac rhythms.
- Developed custom **process automations** for task assignment & email alerts using **Salesforce Workflows and Reports**.

**Agoura Math Circle**, *Data Science & Math Tutor; Assistant Vice President*

**September 2021 – Present**

- Led and designed lectures for Senior Beginner, AMC 8, **AMC 10**, and **Math Kangaroo** competitions to **over 400** middle and high school students.
- Hosted Data Science workshops using **Kaggle** and **Google Colab**, introducing students to Python programming, data visualization, and important libraries such as **Numpy** and **Pandas**.
- Moderated **Triangular Talks** sessions featuring guest professors, engineers, and alumni, helping inspire students to explore advanced STEM topics beyond the classroom.

## LEADERSHIP EXPERIENCE

**Web Development Club**, *President & Founder*

**September 2022 – June 2025**

- Provided hands-on instruction in **HTML**, **JavaScript**, and **CSS** to over **50+ members** over 3+ years.
- Mentored students preparing for AP CSA and CSP exams, offering weekly reviews and tutorials to help students get a 5.

**Artificial Intelligence 101 Club**, *President & Founder*

**September 2023 – June 2025**

- Introduced students to foundational AI and machine learning concepts through coding sessions and discussions.
- Demonstrated and analyzed how LLMs such as **ChatGPT** and **Google Gemini** work and developed a structured curriculum to accommodate students with varying experience levels.

## CERTIFICATIONS

- **Salesforce** Certified AI Specialist
- **Oracle** AI Foundations Associate
- **IBM** - Artificial Intelligence Fundamentals, Project Management Fundamentals
