

Alice (Seoyoung) Park

alp028@ucsd.edu | linkedin.com/in/alice-park-seoyoung/ | github.com/starryyed

EDUCATION

University of California, San Diego

La Jolla, CA

B.S. in Mathematics-Computer Science, Minors in Data Science + Business Analytics

Expected: June 2029

- GPA: 3.90/4.00 | *Provost Honors (Fall 2025 - Present)*
- Relevant Coursework: Programming and Data Structures, Principles of Data Science, Linear Algebra

Northwood High School

Irvine, CA

High School Diploma

June 2025

- GPA: 4.4262 (W), SAT: 1580

EXPERIENCE

Student Researcher

Nov 2025 – Present

Halcioğlu Data Science Institute at UC San Diego

La Jolla, CA

- Part of UCSD's Responsible Data Science Program, data science research investigating recidivism rates in criminals in relations to mental health. Mentored under Professor Saura Naderi and PhD Student Conan Minihan.
- Query, analyze, and aggregate large databases of criminal data through Python, pandas, and NumPy.

DataHacks Committee, Marketing Lead

Oct 2025 – Present

Data Science Student Society (DS3) at UC San Diego

La Jolla, CA

- Lead in the planning, organization, and execution of UCSD's Premier Data Science Hackathon, DataHacks 2026
- Direct and oversee the overall marketing execution of DataHacks as Marketing Lead through filming promotional content for social media, resulting in increase in participants and event awareness.

TEST Developer

Nov 2025 – Present

Triton Software Engineering (TSE) at UC San Diego

La Jolla, CA

- One of 7 selected Developers for TSE's TEST Program for students with underprivileged backgrounds in Software Engineering, creating full-stack (React, JavaScript, Node.js, MongoDB) projects in Web Development

Historian

Oct 2025 – Present

Roblox + RBXDev Club at UC San Diego

La Jolla, CA

- Lead event logistics and check-in processes for 80+ attendees, organizing attendance data from club events and workshops, ensuring comprehensive record-keeping. Archive club activities through photographs and data.

Student Research Assistant

June 2024 - Sept 2025

Institute for Mathematics and Democracy, Wellesley College

Wellesley, MA

- Independent research project on voting theory with spatial models to develop voting practices, mentored by Dr. Jennifer Wilson. Pending publication for Vol. 10 of the PUMP Journal of Undergraduate Research.
- Developed an algorithm in Python to simulate election outcomes and test mathematical hypotheses in voter theory

PROJECTS

CrimeCatcher | React, Python, OpenCV, Eyepop.AI, YOLOv8

SanD Hacks, Jan 2026

- Built a real-time threat detection software combining local real-time analysis through OpenCV with advanced cloud-based verification with EyePop.AI, with a React-based frontend admin dashboard.

Cafe Simulator | Python, SQL, HTML, CSS

Aug 2025 - Sept 2025

- Full-stack web application that allows users to include personalized notes in previous cafe orders stored in a SQLite library database. Used HTML/CSS to enhance visual presentation, with a cozy interface emulating a real cafe.

TECHNICAL SKILLS

Languages: Python, Java, Matlab, HTML, CSS

Developer Tools: Git, VS Code, Figma, LaTeX, Microsoft Office, G Suite

Libraries: pandas, NumPy, Matplotlib
