Education

University of California, San Diego

Expected: June 2027

BS. Cognitive Science - Machine Learning & Neural Computations

San Diego, CA

• **Certificates:** Six Sigma Yellow Belt, HackerRank SQL Intermediate

Experience

Develop for Good – Partner in Education Roatan | [Link](#)

May 2025 – Aug 2025

Technical Product Manager

San Francisco, CA

- Conducted **12+** stakeholder interviews and translated findings into **15+** feature requirements with acceptance criteria, KPIs, user stories, and feasibility analysis for a nonprofit serving **4,000+** students across **49** schools.
- Directed a **6-person** cross-functional team through **agile sprints**, managing design-engineering document handoffs and usability tests that cut donation steps by **66%** and boosted impact page engagement by **30%**.
- Iterated features through weekly client check-ins and usability testing with **5 KPIs**; documented updates that improved site maintainability, with **100%** of board members reporting easier updates and **66%** less volunteer training time.

RunBuggy | [Link](#)

Dec 2024 – May 2025

Data Science Intern | i4X Program, The Basement UCSD

San Diego, CA

- Processed and analyzed **172K+** transportation messages and **5,370+** orders from **560** companies using **Python**, automating validation and reducing manual processing time by **97%**.
- Engineered **5** key operational features and integrated web-scraped data from external **APIs** using fuzzy matching and **K-Means clustering** to implement a scoring system that reduced site verification time by **97%**.
- Delivered **12+** biweekly presentations to **30+** stakeholders and showcased a React interactive map visualization that cut company search time by **93%** to **400+** Demo Day attendees.

Society of Asian Scientists and Engineers (SASE), UC San Diego | [Link](#)

Sep 2023 – May 2025

Mentor-Mentee Program Manager, Professional Relations Committee

San Diego, CA

- Led an AI document search prototype indexing **200+** internal files, cutting lookup time by **95%** using semantic embeddings, vector search, and local language model inference.
- Led mentorship and professional engagement programs, managing **30+** mentor-mentee pairings, increasing enrollment **70%**, and hosting **17** industry professionals and **72** students.

Projects

Medical Device Failure Analytics Dashboard | [Link](#)

Data Analyst

- Built a failure prediction model with **Python** achieving **85%** accuracy by engineering **4** interaction features, analyzing **4,100+** medical devices across **6** countries to flag **67%** of the fleet for prioritized maintenance.
- Wrote **SQL queries** and developed an interactive **Streamlit** dashboard visualizing **\$36M+** in maintenance costs and **8,000+** failure events to support proactive maintenance planning.
- Enabled vendor performance monitoring by identifying risk patterns across **6 manufacturers**, supporting data-driven accountability and operational decision-making.

Delta Airlines Customer Experience Analysis | [Link](#)

Data Analyst

- Wrote **20+ SQL queries** in **Snowflake** and **Python** notebooks to analyze **2.9K** Delta reviews, uncovering satisfaction patterns across traveller type, seat class, route, and aircraft.
- Developed **Mode Analytics dashboards** to track **6 KPIs** and **10+ insights** to deliver stakeholder-ready analysis projected to improve Delta customer experience by **15%**.
- Built end-to-end **machine learning pipelines** for recommendation classification and value-for-money regression, achieving **98.7%** ROC-AUC and **$R^2 = 0.77$** .

Skills

Process & Operations: Six Sigma (Yellow Belt), DMAIC, Root Cause Analysis, Five Whys, Lean Principles, Continuous Improvement, Process Documentation, ETL Processes, Agile/Scrum

Technical Tools: SQL, Excel, Python, Tableau, Mode Studio, Power BI, Git/GitHub, MS Office, Visio

Analytics: Data Cleaning & Transformation, Statistical Modeling, Predictive Analytics, Machine Learning, Data Visualization, KPI Tracking, A/B Testing, Demand Forecasting

Communication: Cross-Functional Collaboration, Stakeholder Reporting, Training Material Development, Data Storytelling, Dashboard Design
