

Anusha Chadalavada

achadalavada@ucsd.edu | github.com/anushachad | linkedin.com/in/anushachad/

EDUCATION

University of California, San Diego

Graduation Date: Spring 2027

B.S. Cognitive Science (Machine Learning & Neural Computation)

GPA: 3.70

Coursework: Statistics, Probability, Calculus, Data Science, Data Structures, ML Algorithms, Linear Algebra, Linear Regression, User Interface Design, Distributed Systems, Object-Oriented Design

WORK EXPERIENCE

Computer Science and Engineering Society (CSES) - Software Engineer

May 2025 - September 2025

- **Developed and deployed** a scalable web platform by architecting front-end and back-end systems using **React**
- **Increased user satisfaction by 32%**, optimizing site performance through **iterative** testing and **feedback** integration
- Transformed user requirements into functional website features with structured flows, wireframes, and **Figma** prototypes
- Streamlined **cross-team collaboration** to align design, engineering, and deployment, ensuring on-time, stable releases

Design For America - Software Engineer

February 2025 - April 2025

- Directed a **4-person** engineering team in redesigning and implementing the Alzheimer's Association website
- **Reduced developer handoff time by 41%** by translating Figma prototypes into efficient, reusable React components
- **Delivered** the redesigned Alzheimer's platform to DSA board, showcasing improved accessibility and user experience

University of California, San Diego COSMOS - Research Intern

July 2023 - August 2023

- Conducted experimental Tissue Engineering and Regenerative Medicine research under Professor Sah and Dr. Gaetani
- Performed **cell characterization** and **stem cell analysis** to evaluate tissue regeneration potential in collagen hydrogels
- **Tested** and analyzed the effects of Using EdU to Localize and Track Proliferating Chondrocytes in Collagen Hydrogel
- **Presented** research findings to UC San Diego faculty and the public, showing key results and implications for TE-RM

PROJECTS

Mental Health Analytics Platform | Python, Pandas, NumPy, SciPy, Jupyter Notebook

December 2025

- Collaborated in a **5-person** team to build an end-to-end mental health data **analysis pipeline** using **Python** frameworks
- Cleaned and integrated multi-source survey datasets totaling **1,200+ respondents** and **45+ features** using public sources
- Engineered **reproducible** Python workflows for **normalization**, **encoding**, and **outlier** handling over multiple datasets
- Applied **Spearman** and **Pearson** correlation analyses to lifestyle and mental health variables, **identifying** relationships
- Built modular **Matplotlib** and **Seaborn** visualizations for **15+ features**, including **PHQ-9** and **PSS** metrics to evaluate

Junkfish - IEEE QP | C++, C, React, Golang, Python

December 2024

- Placed **1st among 25+** developer teams and presented to Institute of Electrical and Electronics Engineers (IEEE) board.
- Created a distributed system of microcontrollers harvested from recycled smart devices, **powering** a chess engine.
- **Improved algorithm efficiency by 87%** using Minimax and alpha-beta pruning, **reducing** number of evaluated nodes in a distributed environment while simulating gameplay to **identify** optimal chess moves, enhancing speed and accuracy
- **Built an** interactive chessboard **UI** using React, featuring dynamic move highlighting and visual game-state indicators.

ACTIVITIES AND LEADERSHIP

Institute of Electrical and Electronics Engineers - Vice Chair Operations

May 2025 - Present

- Coordinate with **4+ university** and external funding bodies (AS, TCF, UCAB, TESC) to secure **event financing**
- Serve on **cross-functional** planning committees, aligning logistics, timelines, and **stakeholder** requirements for events
- Lead operational planning and execution for **80+ events**, serving **600+** attendees in academic and professional programs
- **Synthesize** and **report** key updates, risks, and decisions from **5+ stakeholder** meetings to the IEEE Exec Board

Camp Galileo - Lead Instructor

June 2024 - August 2025

- Led and instructed for **40+ students**, delivering hands-on **engineering** and creative **project-based** learning programs
- Communicated often with parents, providing progress updates, addressing concerns, and reinforcing learning outcomes

SKILLS

Languages/Libraries: Python, Java, C, SQL, Pandas, HTML/CSS, JavaScript, Go, Figma, Git, React, Node, Kiro, AWS

Hard Skills: Microsoft, Google Suite, Excel, Research Presentation, Data Visualization, Stakeholder Communication

Interests & Hobbies: Soccer, Watching Sunsets, Beaches, Basketball, Thai Food
