EDUCATION

Leigh High School

June 2025

Overall GPA: 4.38

Relevant Coursework: AP Computer Science A (5), AP Statistics (5), AP Calculus AB (5), AP Physics 1 (5), AP Physics 2 (5), Chemistry Honors

University of California, San Diego

Expected June 2029

B.S. in Artificial Intelligence

Current GPA: 4.00

Relevant Coursework: CSE 11, CSE 12, CSE 25

PROJECTS

Geisel IoT Occupancy Project (Proof of Concept)

October 2025 – December 2025

IoT / Software Engineer

- Programmed a proof-of-concept ESP32 IoT system using ESP32 and Bluetooth Low Energy (BLE) scanning to estimate real-time occupancy in UCSD's Geisel Library.
- Implemented anonymized device detection using hashed identifiers to preserve user privacy while enabling accurate aggregate counts.
- Implemented a Realtime Firebase data ingestion pipeline to stream, store, and aggregate live occupancy data.

Sprint Analysis System

August 2024 – October 2024

Arduino Systems Developer

- Evaluated asymmetric force application in athlete sprinting form by engineering a wearable Arduino gait analysis system to identify low-high injury risk muscle imbalances
- Programmed Arduino BLE communication to read and process thousands of real-time datapoints from four MMA8451 accelerometers per cycle to enhance precision
- Overcame I²C addressing, Bluetooth, and cross-platform (Arduino IDE to Python) data transmission constraints.

LEADERSHIP & ATHLETICS

Varsity Track & Field

January 2023 – June 2025

Sprints Captain

San Jose, CA

- Led 4x100m, 4x200m, 4x400m, and medley relay teams by coordinating and refining baton exchanges and optimizing race strategy
- Integrated underclassmen into team dynamics through mentorship in sprinting technique, strength training, and meet preparation
- Accolades: 2× MHAL & BVAL Gold Medalist, 2× BVAL Silver Medalist, 7× CCS Semifinalist, 1× CCS Finalist, 2× Nike Outdoor Nationals Qualifier, 4x School Record Holder

SKILLSET

Technical

Java, Python, Arduino IDE

Libraries

OpenCV, MediaPipe, Asyncio, Pandas, Bleak, NumPy

Interpersonal

Discipline, Onboarding, Instructional Communication

Transferable

Data Analysis, Quality Assurance, Navigate Ambiguity
