

Gloria Lee

San Diego gll004@ucsd.edu (408) 824-0729 linkedin github.com/Mianbao004

Education

University of California San Diego

Bachelor of Science in Mathematics-Computer Science, Minor in Data Science

Expected Graduation:

June 2027

- GPA: 3.5/4.0
- Relevant Coursework: Web Client Languages, Online Database Analytics Applications, Data Science in Practice, Theory of Computation, Advanced Data Structures

Technical Skills

Languages: Python, Java, C++, JavaScript, TypeScript

Developer Tools: VS Code, Vite, Vercel, Git

Technologies/Frameworks: HTML, CSS, Node.js, React, Konva, MediaPipe

Libraries: Pandas, NumPy, Matplotlib, Seaborn, scikit-learn

Databases: MongoDB, Supabase

Personal Projects

HamsterVision

Current

- Developing an interactive web application for the Women in Computing Pop Culture project theme using **TypeScript** and **Vite**, deployed via **Vercel**.
- Integrated **MediaPipe** for real-time computer vision/facial detection to drive dynamic hamster generation features.
- Building a stylish responsive front-end interface using **HTML** and **CSS**, optimizing for user experience and visual appeal.

Investigating Mexican Cartels as Foreign Terrorist Organizations

Jan 2025 - March 2025

- Sourced and integrated a U.S. Customs and Border Protection drug confiscation dataset (FY2019–2025) to enable cross-border analysis of fentanyl trafficking trends.
- Cleaned and wrangled multiple overlapping government datasets, standardizing formats and resolving inconsistencies to produce an analysis-ready dataframe.
- Conducted exploratory data analysis segmenting drug seizures by type, border region, and time to determine correlations between cartel activity and U.S. national security threats.
- Documented dataset structure, key variables, and data visualization to support team reproducibility.
- Built with **Python**, **Pandas**, **NumPy**, **Matplotlib**, **Seaborn**, **Jupyter Notebook**

US Geography Learning Map: Interactive Quiz & Minigame

Sep 2025 - Dec 2025

- Collaborated with a team of 5 to design and develop a full-stack interactive quiz and minigame web application for elementary US geography education.
- Engineered game and minigame logic, state management, and dynamic user interactions in **TypeScript**.
- Designed and implemented a responsive **HTML/CSS** UI optimized for different dimensional desktops, improving accessibility for student users.

Experience

Women in Computing DEI Committee Officer

Dec 2025 - Current

- Organized DEI-focused events and workshops to foster inclusivity and community among women and underrepresented students in computing.
- Led outreach initiatives to connect underrepresented students with professional development resources and networking opportunities.
- Hosted LinkedIn workshops to strengthen students' professional networking and career readiness skills.
