

NANCY LE

La Jolla, CA | nble@ucsd.edu | 714-206-7794

EDUCATION

University of California, San Diego

La Jolla, CA

Bachelor of Science in Data Science | Cognitive Science Minor

Sep 2024 - June 2028

Relevant Coursework: Principles of Data Science, Programming and Basic Data Structures for Data Science, Data Structures and Algorithms for Data Science, Theoretical Foundations of Data Science I and II, Linear Algebra, Calculus 1-2-3, Introduction to Research Methods, Introduction to Statistical Analysis

PROJECTS

Grocery Store POS System & Barcode Processor (Python) - Built a grocery store POS system in Python using OOP, with barcode validation, inventory management, membership rewards, and coupon/discount processing to simulate full checkout workflows.

Image Collage Generator (Python, PIL) - Created a 2x2 photo collage by directly manipulating pixel-level RGB values, implementing custom filters, colored borders, image compositing, and procedural graphics using low-level PIL methods

Memory Match Game (Python) - Designed and implemented a text-based matching game using 2D lists, randomization, and Boolean matrices to manage game state, validate player input, and dynamically update the board after each turn.

SKILLS

Programming and Scripting: Python, Java

Data Analysis & Visualization: pandas, NumPy, MATLAB, Jupyter Notebook, Matplotlib

Data Structures & Algorithms: Arrays, Lists, Linked Lists, Stacks, Queues, Heaps, Binary Trees, Hash Tables; recursion, higher-order functions, object-oriented programming

Mathematical & Theoretical Foundations: Probability, regression, classification, optimization, empirical risk minimization, time complexity, graph algorithms

Languages: English, Vietnamese

ACTIVITIES AND EXPERIENCES

Active Member | Data Science Student Society

2024 - Present

University of California, San Diego

- Participate in workshops, speaker events, and collaborative projects focused on data literacy, Python programming, and statistical modeling.
- Engage in peer-led discussions to expand technical and communication skills in team-based learning environments.

Active Member | Women in Computing

2024 - Present

University of California, San Diego

- Learned foundational computing topics through workshops and discussions, including programming fundamentals, tech career development, and industry best practices
