

Rishi Malhotra

(929-232-0041) ❖ rimalhotra@ucsd.edu ❖ rishimalhotra.com ❖ [LinkedIn](#) ❖ [Seizeyoursalad](#)

EDUCATION

University of California, San Diego

Expected Graduation June 2029

GPA: 4.00

Major: Bachelor of Science in Bioengineering: Biotechnology

Minor: Finance

RESEARCH EXPERIENCE

Researcher - Examining the Vulnerability of Multi-Agent Medical Systems to Human Interventions for Clinical Reasoning

Jun 2025 – Sep 2025

- Accepted as a poster to 3 NeurIPS 2025 workshops (SEA, GenAI4Health, RegML) for research on multi-agent clinical AI systems.
- Presented research at NeurIPS 2025 (SEA, GenAI4Health Workshop), highlighting vulnerabilities in the framework of human-in-the-loop medical AI systems, showing how AI can be exploited for data and diagnoses to be manipulated.
- Implemented multi-agent simulations in Python (VS Code), coding prompt pipelines, and custom GPT-4.1 agents for doctor-patient, specialist, and oversight roles.
- Conducted data analysis across 214 MedQA clinical cases, quantifying diagnostic accuracy shifts in doctor-agent reasoning
- Managed and coordinated a 12-person research team by delegating tasks in coding, data analysis, and literature review.

Researcher – Stanford Summer Session Collaborative Project

Jun 2024 – Aug 2024

- Collaborated with a research group of 3 peers to investigate tumor angiogenesis and its role in metastasis and nutrient delivery.
- Conducted a review of 25 peer-reviewed studies on VEGF signaling pathways and their role in tumor growth and progression.
- Evaluated 4 major classes of anti-angiogenic therapies, comparing mechanisms, efficacy outcomes, and clinical limitations using case studies.
- Created a podcast with 3 episodes to raise public awareness on experimental cancer treatments and cutting-edge research.

Mapping COVID-19 Mutations – Inspirit AI

Jun 2023 – Aug 2023

- Collaborated in a 3-person team to design an algorithm mapping COVID-19 mutations to geographic regions.
- Analyzed SARS-CoV-2 genomic sequences and compared them with 20 bat RNA viruses to identify evolutionary relationships.
- Applied logistic regression models to track mutation patterns globally, achieving 96% classification accuracy.
- Gained skills in Data Analysis, Academic Research, and Logistic Regressions.

LEADERSHIP EXPERIENCE

CEO and Founder of Seizeyoursalad, NY, www.seizeyoursalad.com

Sep 2023 – Jun 2025

- Built and scaled a digital mentorship platform empowering 80+ students to explore career paths and secure 100+ internships.
- Organized and moderated 30+ live Q&A sessions with professionals from Google, Meta, Boeing, and more.
- Led outreach, platform development, and marketing; integrated a weekly podcast series to expand impact.
- Created a community-driven space focused on student growth, networking, and personalized career guidance.

Nucleate, San Diego

Oct 2025 – Present

- Managing LinkedIn outreach and content for 1K+ followers to spotlight Activator startups and upcoming biotech initiatives.
- Coordinating outreach to 20+ founders, mentors, and investors to grow Nucleate San Diego's innovation network.

Vice President of Engineering, Innovation, and Entrepreneurship Club, UC San Diego

Sep 2025 – Present

- Leading the Finance Committee and overseeing all budgeting, fundraising, and financial operations for the club
- Developing and managing the annual budget to ensure financial stability and strategic growth
- Creating a student micro-fund to support local UCSD startups in tech and engineering.
- Coordinating sponsorship outreach and fundraising campaigns with external partners and campus organizations

Qualcomm Institute x EIEC Innovation & Entrepreneurship Fellow - FA 25 Cohort, UC San Diego

Oct 2025 – Present

- Collaborating with a 4-person biotech team to develop and validate a VOC "breathalyzer" to detect early stages of lung cancer.
- Conducting customer discovery and market validation to align biomedical applications with real-world healthcare gaps.
- Gaining hands-on experience in biotech commercialization and developing prototype concepts, cost-structure models, and pitch materials to present to potential investors and industry mentors.

Startups Panel Sublead – Medical Innovation Conference

Oct 2025 – Feb 2026

- Organized and moderated a biotech entrepreneurship panel featuring 3 startup founders (Dr. Akhtar, Dr. Debbie Chen, Dr. Albizati) before 50+ attendees
- Conducted a live on-stage interview with the Startups Panel on venture creation, fundraising, and commercialization strategy

SKILLS

Computer Skills: Python (Proficient), VS Code, Microsoft Office (Word, Excel, PowerPoint), Adobe Illustrator (Proficient), Photoshop (Proficient)

Data & AI Skills: Data Analysis (Proficient), Logistic Regression, Statistical Modeling, Multi-Agent Systems, Large Language Models (LLMs)

Scientific Skills: Genetics (coursework), Gel Electrophoresis, Restricted Enzyme Digest, PCR, Bacterial Transformation, Scientific Writing, Literature Review, Micropipetting

Leadership & Communication: Public Speaking (Proficient), Team Management (12-person research team), Event Planning & Coordination (MeadowBrook Polo Club Event Organizer), Cross-Disciplinary Collaboration

Awards and Honors

Xerox Award for Innovation and Information Technology | Issued by University of Rochester · Mar 2024

NYS APHERD - Outstanding Physical Education Student Award | Issued by NYS APHERD · Jan 2024

Research | Euler's Number (e) and Riemann Series | Long Island GOLD MEDAL WINNER · Apr 2023

Research | Solving Logarithms by Hand | Long Island SILVER MEDAL WINNER · Apr 2023
