EDUCATION

John C. Kimball High School — Class of 2025

University of California, San Diego (UCSD) — Data Science Major, Class of 2029

Relevant Coursework:

DSC 10 (Intro Data Science & Python), DSC 20 (Programming & Data Structures), DSC 96 (Data Science in Practice – data cleaning & analysis projects & ML projects), COGS 14A/14B (Statistical Methods & Experimental Design)

PROFESSIONAL & RESEARCH EXPERIENCE

Statistics Without Borders (SWB) – EquinENT Impact Measurement Project | *Volunteer Data Science Consultant* | Present

- Evaluating existing data-collection practices and designing an improved impact-measurement framework for a global entrepreneurship initiative.
- Analyzing multi-year program and pilot cohort data to assess participant outcomes and community-level economic engagement.
- Building data visualization dashboards and reporting tools to communicate insights to stakeholders.
- Collaborating with an international volunteer team to deliver scalable social-impact evaluation methods.

Research Project – Mental Health AI | *Extracurricular Researcher* | 2024 – Present

- Developed machine-learning models to identify and track mental health risk indicators.
- Programmed predictive models to detect depression and suicide tendencies in school and workplace environments.
- Applied data analysis and predictive modeling techniques to address real-world mental health challenges.

Research Project – Water Quality AI | *Extracurricular Researcher* | Present

- Designing machine-learning models to analyze water quality data and identify contamination patterns.

Sai Surya Likthi Gogula

gogula.sailikith@gmail.com | 510-514-4640 | Tracy, California

- Applying data-driven methods to support environmental monitoring and public health assessment.

PayToMe.co | *Marketing & Web Development Intern* | 2024 – Present

- Collaborating with interns nationwide to promote an AI-based financial platform for small and medium-sized businesses.
- Assisting in brochure creation and marketing campaigns to expand company outreach.
- Supporting website development and pitch-deck preparation for stakeholder presentations.

Cybersecurity Camp Participant | Summer 2020

- Acquired cybersecurity skills focused on threat recognition and response strategies.
- Participated in simulated cyber-attack defense exercises to strengthen teamwork and problem-solving.

BlackBerry | *Job Shadowing Experience* | 2022 – 2023

- Observed project planning and software development workflows.
- Studied data management techniques used in emergency alert systems.
- Contributed ideas for UI/UX design improvements.

Community Web Development Project | 2022 – 2023

- Built a website for a local community business to support online sales and advertising.
 - Helped expand business revenue through digital outreach.
-

VOLUNTEER & LEADERSHIP EXPERIENCE

Community Pathways – UC San Diego (ISEO Education Program) | *Volunteer* | Winter 2026 – Present

- Support and facilitate educational and cultural programming for international and local students.
- Assist in organizing campus events including Global Coffee Hour and community-building activities.
- Contribute to UCSD community engagement initiatives promoting inclusion and cross-cultural connection.

Boy Scouts (Eagle Scout) | 2019 – Present

- Led community service projects including a food drive collecting over 9,000 pounds of food for shelters.
- Spearheaded infrastructure improvement projects in Mount Diablo Park to enhance public safety.

Peer Tutoring Volunteer | 2018 – Present

- Provided tailored tutoring to over 20 local and immigrant students in language and core academic subjects.

Sai Surya Likthi Gogula

gogula.sailikith@gmail.com | 510-514-4640 | Tracy, California

- Supported smoother cultural and academic transitions, improving student performance.
-

EXTRACURRICULAR ACTIVITIES

Math Club | 2023 – 2025

Manabadi School of Telugu | 2019 – 2021

- Achieved proficiency in Telugu through certification exams and cultural participation.
- Organized cultural exhibits promoting linguistic and cultural diversity.

Robotics Team | 2023 – Present

- Participate in STEM competitions through collaborative engineering and programming challenges.
-

SKILLS & INTERESTS

Technical Skills: Python, Java, C++, R, Pandas, Jupyter, Data Science, Cybersecurity

Languages: English, Hindi, Telugu, French

Music: Keyboard (5 years), Guitar (4 years)

Sports: Basketball
