

Tom Ragus

(310) 426-4950 | tragus@ucsd.edu | [linkedin.com/in/tragus](https://www.linkedin.com/in/tragus) | github.com/tomragus

SUMMARY:

Graduate student and data professional with strong communication and leadership skills and a keen interest in machine learning applications. Currently open to internships and contract roles, with particular interest in data analysis, artificial intelligence and machine learning roles.

EDUCATION:

University of California, San Diego

San Diego, CA

Master of Data Science (MDS) professional degree program | 4.0 GPA

3/2027

University of California, Irvine

Irvine, CA

Bachelor of Science, Mathematics

6/2024

SKILLS:

Programming Languages: Python (pandas, numpy, scikit-learn, tensorflow), SQL, R, MATLAB

Software: Jupyter, Microsoft Office, Microsoft Excel, Tableau, LLMs, Prompt Engineering

Disciplines: Machine Learning, Neural Networks, Data Analysis, Data Science, AI Agents, Research

Soft: Communication, Teaching, Project Management, Presentation, Leadership, Team Management, Collaboration, Creativity, First Aid/ CPR, Lithuanian

PROFESSIONAL EXPERIENCE:

AI Student Collective at UC San Diego

San Diego, CA

VP of Projects, Education Fellow

11/2025- Present

- Coordinating a team of 6 undergraduate students and managing project initiatives for an adaptive mastery quiz Streamlit app and a coral bleaching detection model using UCSD's CoralNet

The Basement at UC San Diego

San Diego, CA

i4X Capital Program Management (CPM) Team Member

11/2025- Present

- Optimizing data systems and analytics for UCSD Healthcare Capital Program Management, analyzing 14+ years of construction project cost data to identify patterns and improve resource allocation
- Collaborating directly with Capital Program Management leadership to design statistical analyses and data categorization frameworks that will inform future project planning and budget forecasting

Corvia Medical, Inc.

Remote

Data Analyst, Contract

8/2025- 11/2025

- Built an application that generates a comprehensive analysis for any given CSV of research data and presented it to three VPs of the company
- Cleaned and analyzed heart pressure data to assist with clinical research trials for a life-saving atrial shunt implant
- Conducted quality control for 100% reading accuracy and cooperated with team to ensure meeting of deadlines for data reporting

Los Angeles Unified School District**Los Angeles, CA**

Mathematics and Robotics Teacher, Full-time

7/2024- 12/2024

- Managed over 140 students at Mark Twain Middle School with over 95% of students meeting CA common core state standards
- Coached robotics team translating robotics and coding principles into robot engineering results

Anaheim Union High School District**Anaheim, CA**

Mathematics and Data Science Instructor, Part-time

1/2023- 6/2024

- Taught engaging mathematics curriculum using whiteboard tables to encourage critical thinking and problem-solving
- Designed and delivered data science labs using the R language in a high school setting

PROJECT EXPERIENCE:**Child Mind Institute: Behavior Detection Model 1D-CNN**

Independent Project

12/2025

- Built a neural network that detects 18 distinct gestures from sequenced data collected by a worn accelerometer wrist device with 66-70% accuracy and F1-score
- Engineered features from 3D acceleration and orientation data including linear acceleration, magnitude jerk, and angular velocity
- Contributed to the Child Mind Institute's mission of understanding of how different Body-Focused Repetitive Behaviors (BFRBs) are related to OCD in children and adolescents

Child Mind Institute: Personal Internet Use Classification Model

Independent Project

7/2025

- Built a comprehensive machine learning pipeline to predict participants' severity impairment index (SII) with a comprehensive data analysis and two different models
- Contributed to the Child Mind Institute's mission of understanding and improving the psychology of the developing brain to improve life outcomes for children and adolescents
