

EDUCATION

University of North Carolina at Greensboro | Bachelor of Science in Information Science

August 2021 - May 2025

- Concentration: Organizational and Community Informatics
- Minor: Information Analytics

PROJECTS

Ride Sharing App Database

SQL

- Created a database for a ride sharing app to store data of passengers, drivers, dropoff and pickup addresses and other data points
- Used SQL to create database table to store and input data for ride sharing app
- Database houses 7+ entities with relationships to each, along with primary keys and defined classes
- Created an entity relationship diagram and relational schema to model app database and data tables

Sales Calculator

Python

- Created Sales Calculator that takes user-inputed price and calculates price after tax
- Calculator was used for personal side business and has increased computation efficiency by 20%

Retail Database Data Analysis

SQL, Microsoft Excel, Power BI

- Pulled data from Retail database housing over 100+ records using multiple SQL
- Exported database to Microsoft Excel for further statistical analysis and showcased findings in Power BI
- Used ETL principles to gather and transform data in SQL and export to Microsoft Excel spreadsheet for further analysis

Microchip WebScraping and Analysis

Python, JavaScript, Microsoft Excel

- Used Python to scrape 7+ forum topics for questions and forum discussions with Selenium, Beautiful Soup, Scrapy, and Puppeteer
- Content was exported to Microsoft Excel for data cleaning and continued analysis
- Initiated sentiment analysis on scraped content from website using Python to gauge positive and/or negative discussion
- Created FAQ document for company website using ChatGPT from scraped content
- Conducted weekly meeting with company to discuss progress, errors, new developments, and deliverables

RELEVANT COURSEWORK

- **ISM 110 - Foundations for Analytics using Spreadsheets**
 - Introduction to Microsoft Excel
- **CSC 120 - Introduction to Computer Programming for Non-Majors**
 - Introduction to Python
- **ISM 218 - Database Systems**
 - Introduction to SQL
- **IST 301 - Information Organization**
 - Data Analysis, Data Governance, and Data Management

SKILLS

Python | SQL | R | Power BI | Tableau | Microsoft Excel
