EDUCATION

Florida International University

Bachelor of Science, Computer Engineering

January 2022– Expected graduation date: December 2026

Miami, FL

- **Dean's list (2022-Present)**
- **Relevant coursework:** Data Structures & Algorithms, Embedded Operating Systems, Python Programming, Discrete Structures, Programming I & II, Telecommunications Networks, Programming Embedded Systems, C++ Programming for Embedded Systems.

WORK EXPERIENCE

Choose 2 Rent

February 2025 – November 2025

Data Analyst

Miami, FL

- Designed interactive **Matplotlib** dashboards to visualize the sales of different equipment, like routers, printers, iPads, etc. This would be showcased to executives and sales team to improve sales by **\$50k quarterly**. Additionally, designed diagnostic visuals for the IT team to identify high-frequency product defects, leading to a **12.3% improvement** in repair turnaround times.
- Built an AI support chatbot with a team of 2 developers using **PyTorch** and **Python**, we trained and fed it various support logs from previous calls to better assist our IT support team to answer and resolve support calls.
 - **Hardware:** Zebra printers, Epson printer, Brother printers, iPads, Laptops.
 - **Software:** Python, SQL, Pandas, SQLAlchemy, Git, Cvent, vFairs, Matplotlib.

Mango

December 2023 – August 2024

Software Developer

Miami, FL

- Developed a startup platform with a group of peers using **React.js** and **Spring Boot**, we implemented a secure backend with **PostgreSQL** to manage user authentication, product listings, order processing, and deployed **RESTful APIs** endpoints to facilitate real-time data exchange between the frontend and the database.
- We developed this app for a **Ford philanthropy contest**, our app helps small farmers in Florida grow and sell their products online in an easier manner; interviewing multiple farmers, we made sure the app was easy to use for not so tech-savvy people as the median age of farmers are 55 years old.
 - **Key Results:** Won \$25k prize from Ford Philanthropy for social impact award. Collaborated with multiple partners including Redland Ahead, Coral Gables, and Microsoft.
 - **Software:** Spring Boot, Java, React.js, Figma, PostgreSQL, Docker.

Verizon

November 2023 – December 2024

Sales Representative

Hialeah Gardens, FL

- Collaborated with technical support teams to resolve complex customer issues within 24 hours, improving customer **satisfaction scores by 15%** and driving repeat business.
- Achieved an average of **20+ sales biweekly** across multiple product categories including smartphones, tablets, and device protection plans, consistently meeting and exceeding store performance benchmarks.

EXTRACURRICULAR

Society of Hispanic Professional Engineers

January 2022 – Present

Member Miami, FL

- Participated in **15+ professional development events** and networking sessions throughout the year, connecting with industry professionals from **Fortune 500 companies** and expanding technical knowledge in engineering fields.
- Volunteered at community events promoting **STEM events education to local high school students**, demonstrating engineering concepts through hands-on activities and inspiring the next generation of engineers.

CERTIFICATIONS, SKILLS & INTERESTS

- **Certifications:** CodePath (Intro to Technical Interview Prep), freeCodeCamp (Legacy JavaScript Algorithms and Data Structures), AWS Cloud Practitioners Essentials.
- **Technologies:** HTML, CSS, JavaScript, Java, Python, SQL, C/C++.
- **Frameworks/Libraries:** NumPy, React.js, Flask, SQLAlchemy, Spring Boot, Pandas, PyTorch, Matplotlib
- **Skills:** Problem Solving; Algorithm Design; Database Design; RESTful APIs.
- **Interests:** Basketball, Gym, PC building, Anime, Linux, Game development.
