## EDUCATION

---

### University of California, San Diego

June 2028

*B.S. in Data Science, GPA: 4.0*

*La Jolla, CA*

- Relevant Coursework: The Practice and Application of Data Science, Linear Algebra, Programming and Data Structures for Data Science, Calculus and Analytic Geometry for Science and Engineering, Theoretical Foundations of Data Science
- Activities: Data Science Student Society (DS3) Professional Events Team, ACM Member, Triton Film Society Member

### High School: University Laboratory High School

August 2020 – May 2024

*GPA: 4.0 (Unweighted)*

*Urbana, IL*

- AP Scores: Calculus AB (5), Calculus BC (5), Statistics (5)
- SAT: 760 Reading & Writing, 800 Math
- Extracurriculars: Investment Club Leader, School Scheduling Committee Representative, Varsity Boys Basketball Captain

## EXPERIENCE

---

### DS3 Professional Events Team Member/Director

September 2024 – June 2026

*Data Science Student Society*

*La Jolla, CA*

- Assisted in the organization and execution of 10 events, coordinated logistics and arranged faculty participation.
- Represented the team in executive meetings, stepped in for leadership during the Winter quarter and coordinated with other Execs on events.
- Led a visit and presentation at the San Diego Computing Center (SDSC) for the Spring-2025 quarter to further awareness for students and connect them with internship opportunities at SDSC.
- Chosen as Director of Professional Events for the 2025-26 year.

### Summer Program for Incoming Students (SPIS) Mentor

August 2025 – September 2025

*UCSD*

*La Jolla, CA*

- Mentored and tutored SPIS students in an intensive summer program focused on computer science fundamentals for first-year college students, used previous experience as a SPIS student in the year prior.
- Provided guidance and knowledge in academic and other factors of collegiate life, furthered students' development in programming skills, and collaborated on machine learning projects.

## PROJECTS

---

### Playing Card Value Detector | Python: tensorflow, scikit-learn, matplotlib

September 2024

- Designed a machine learning model to classify playing card values from pictures, using a neural network and PCA.

### Friends Visualization/Lyrics App | Python: numpy, BabyPandas

October/December 2024

- Received 98% plus grades on both Midterm and Final projects in DSC10.
- Implemented text processing and data visualization in projects for sentiment analysis and lyric recognition.

### DIYA Bootcamp Capstone Project | Python: Pandas, matplotlib, seaborn

Summer 2022

- Developed foundational python skills in Data Science.
- Completed a capstone project visualizing what methods students used to attend online school.

## SKILLS

---

**Programming Languages:** Python, Java

**IDE/Tools:** Anaconda, Sublime, VSCode, Jupyter Notebook, Tableau

**Libraries:** Tensorflow, Matplotlib, Pandas, Scikit-learn

**Awards/Certifications:** Excellence in Undergraduate Research Award from the DOC Program 2025

**Languages:** English, German
