EDUCATION

University of California, San Diego

Expected June 2027

Double Major in Data Science and Cognitive Science: Machine Learning; Minor in Philosophy

GPA: 3.9/4.0

Relevant Coursework:

- Neurobiology of Cognition: studied neural systems underlying perception, attention, and memory.
- Modeling and Data Analysis: applied statistical modeling to real-world datasets using Python.
- Recommender Systems and Web Mining: implemented methods for data mining and predictive analytics.
- Deep Learning / Natural Language: studied neural networks for linguistic data using word embeddings and RNNs

SKILLS

Languages: Python, Java, SQL, CSS, HTML

Data Analysis/Visualization Libraries: pandas, scikit-learn, NumPy, seaborn, matplotlib

Tools: Power BI Dashboards, Power Automate, Power Apps, Microsoft Suite (Excel, PowerPoint, Word)

PROJECTS

Epilepsy and Parkinson Disease Clinical Research Project

- Analyzing UPDR scores of patients from California General Hospital.
- Examining correlations between seizure type, post-diagnosis conditions, and UPDRS.

NBA Championship Predictor

- Developed machine learning models using historical NBA seasons and statistics.
- Applied feature engineering and hyperparameter tuning to predict championship winners.

League of Legends Vision Score Analysis

- Performed missingness analysis and hypothesis testing on esports datasets.
- Built a Random Forest model with Grid Search to predict team vision scores.

Image Processing App

- Manipulated images with Python (grayscale, chroma keying, etc.) and classified day vs. night images with KNN.

WORK EXPERIENCE

Kaiser Permanente

June 2025 – September 2025

Nursing Administration Data Analyst Intern

Los Angeles, CA

- Collected, cleaned, and analyzed patient care and staffing data using Excel and Power BI.
- Built interactive Power BI dashboards to highlight key operational metrics and trends for decision-making.

UC San Diego – RRSS Human Resources

August 2024 – June 2025

Student Assistant

San Diego, CA

- Supported projects and initiatives by managing data entry, electronic and paper filing, and spreadsheet workflows.

RELEVANT EXPERIENCE

Triton NeuroTech

September 2024 – Present

Finance Chair, Administrative Officer

- Managing budgeting, income tracking, and expenditure approvals.
- Organized the California Neurotechnology Conference (300+ attendees).

OptiLab, UCSD

March 2025 – Present

Student Researcher

- Studying how depth perception influences NCAA Division I basketball shooting performance.

UCSD Men's Basketball Analytics Team

August 2025 – Present

Data Analyst

- Identifying and analyzing offensive sets using visual tracking models.
- Collaborating with coaching staff to show actionable findings.

FiveHive Math/CS Materials Sub-Team

March 2024 – August 2025

Co-Lead

- Led creation of AP Math and Computer Science mock exams and problem sets; mentored sub-team members.
