

My Name Here

Phone number, github, ssn, etc.

EDUCATION

UMass Amherst / UConn / Penn State / SUNY Binghamton / Stevens / MIT

Bachelor of Science in Computer Science

Expected May 2027

One of the above (WHICH / ONE)

Bachelor of Science in Mathematics

Expected May 2027

GPA: 3.98/4.00 | Honors/Awards: Honors Program, Putnam Mathematical Competition (10/120) (proud of this 1)

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Linear Algebra

SKILLS & CERTIFICATIONS

Programming: Rust, R, SQL, Java, C++, Python, TypeScript, HTML/CSS (I know the Rust mascot is a crab so I know Rust)

Tools: PyTorch, transformers, Flask, React, Tailwind CSS, RStudio, Jupyter Notebook, Docker, Git, Linux, Windows

Certifications: CodePath Intermediate Web Development (CodePath is actually pretty cool, not too high commitment)

RELEVANT EXPERIENCE

xx Lab - Research Intern | Wherever my school is

May 2025 - Present

- Automate storage of terabytes of multimodal data through Amazon S3 in Python
- Create scalable and concurrent systems for a data gathering and topic modeling pipeline
- Build and deploy dockerized API endpoints with Kubernetes for use by university faculty
- Apply agile methodology through weekly sprints and GitHub as a team of eight

xx CS Department - Research Assistant | Wherever my school is

November 2024 - Present

- Utilize machine learning approaches in a team of four towards identifying drug candidates for non-small cell lung cancer (NSCLC) treatment
- Achieve 93% accuracy on molecular property prediction benchmarks using transformer models built with PyTorch
- Combine traditional and deep learning models for a complete virtual screening pipeline
- ^^ Holy cap. I was just running random models

Math Camp - Teaching Assistant | CA (they flew me out it was cool)

May 2024 - July 2024

- Taught and mentored group of xx underprivileged middle-school students in mathematics and problem-solving
- Collaborated with other counselors and teachers to provide an introductory class to Python over four weeks
- Selected from counselors to present experience to sponsors at Jane Street and Hudson River Trading (HRT didn't show up to the Zoom but whatever)

PROJECTS

Discord Clone - Full-Stack Developer (THIS IS A YOUTUBE TUTORIAL LOL)

GitHub link here

- Created a Discord replica with authentication, real-time text and audio chat, and a fully functional React frontend
- Stored messages, profiles, and servers with Supabase and Prisma
- Deployed to the web with Railway for friends to use
- Utilized: TypeScript, React, Tailwind CSS, Supabase, Prisma, Railway

Random Research Project | Team of 6

- Located methane leakage from 5+ abandoned gas wells and natural pockets in a state park
- Examined and visualized over 25+ hours of magnetometer data in R, Python, and ArcGIS Pro
- Presented our findings at a poster presentation
- Utilized: R, Python, Excel, ArcGIS Pro
- Completely unrelated to CS. Not sure why I was in here ngl

INVOLVEMENT

Intern | CS-related Club | Wherever my school is

November 2024 - Present

I don't do anything lol just pull up to the meetings and sit there
