EDUCATION

University of California, San Diego

La Jolla, CA

B.S. in Cognitive Science (Machine Learning Specialization), Minor in Data Science

Expected Graduation, Dec 2026

- **Relevant Coursework:** Probability and Statistics, Statistical Methods, Business Analytics, Supervised Machine Learning Algorithms, Data Structures and Algorithms, Data Science in Practice, Large Language Models

EXPERIENCE

Airline Tariff Publishing Company (ATPCO)

Herndon, VA

Data Analytics Intern

Jan 2026 -

- Designing and building a Power BI dashboard to track lead funnels and attribution across **730K+ email sends** and **4 marketing channels**, creating views and measures for month-over-month reporting.
- Structuring HubSpot CRM data with SQL and **defining 10+ KPIs** to reliably join contacts, emails, deals, and campaigns data, improving reporting accuracy for airfare software product marketing.

UCSD Computer Science and Engineering (CSE) Department

La Jolla, CA

Software Development Intern

Jan 2025 -

- Led full-stack development for OCCTIVE, an NSF-funded EdTech platform **serving 2,500+ students**, designing workflows in Figma and building core front-end functionality with React and Typescript.
- Engineered a Google Sheets-driven data pipeline and dependency graph for scalable content delivery, automating updates and **reducing instructor workload by 80%**.

Kaiser Permanente

Oakland, CA

Data Analytics Intern

June 2025 - Sept 2025

- Led a full cycle A/B test on a KP.org insurance sales webpage, partnering with engineering, UX, and analytics and marketing to optimize CTA placement, driving a **22% lift in quote click throughs** and **50+ monthly sales qualified leads**.
- Redesigned dashboards in Adobe Customer Journey Analytics for **300+ content pages**, clarifying lifecycle KPIs and enabling teams to self-serve insights for data-driven UX and editorial decisions.
- Developed Python scripts to automate and clean 10+ weeks of AEP and SEP enrollment data, building lead funnel pipelines that **improved reporting efficiency by 75%**.

BinaryLabs

San Diego, CA

Data Analytics Consultant

Jan 2025 - June 2025

- Cleaned and analyzed **10K+ user sessions** and DAU/MAU metrics from Dexteria 2, a gamified occupational therapy app, using Google Analytics to identify **3 churn triggers**, seasonal engagement dips, and underused features.
- Built a Tableau dashboard and written reports from app data to guide product decisions and inform development of data-driven features including minigame flow, adaptive difficulty, and progress tracking for the **2025 UX refresh**.

RESEARCH

Ujima Security & Privacy Group

La Jolla, CA

Undergraduate Research Assistant

Jan 2025 - March 2025

- Conducted qualitative analysis on **16 developer interviews** to surface accessibility gaps in conversational AI for neurodivergent users, informing inclusive design recommendations adopted in an **ACM FAccT 2025** [publication](#).

UCSB Producing and Perceiving Language Lab

Santa Barbara, CA

Undergraduate Research Assistant

Jan 2024 - June 2024

- Analyzed **20K+ sentences** from the CHILDES TalkBank with NLTK and VADER to identify emotion-language patterns, **automating 85% of context tagging** with the OpenAI API.

PROJECTS

Convolyzer: Message History Analysis & Visualization Tool [↗](#)

- Created an interactive dashboard app in Streamlit to process and normalize multi-format messaging data, applying NLP sentiment analysis and frequency analysis to uncover behavioral and linguistic trends through Plotly visualizations.

Hype vs. Hyperpigmentation: Analyzing Skincare Marketing Across Asian and Western Markets [↗](#)

- Scraped and structured data from **400+ skincare products**, using pandas, TF-IDF, Chi-Square, and pricing analysis to train a Random Forest model that classified Asian and Western brands with **95.3% accuracy**.

LEADERSHIP

Data Science Student Society at UCSD

La Jolla, CA

Online Content Director

Oct 2024 - Present

- Led a **7+ person team** in producing technical articles on data science and ethical AI, tripling content output in one year.
- Introduced SEO and analytics-driven editorial strategies that **increased site traffic 1.5x**, expanding readership.

SKILLS

Programming Languages: Python, SQL, R, JavaScript, TypeScript, HTML, CSS

Libraries & Frameworks: Scikit-Learn, TensorFlow, PyTorch, Pandas, NumPy, NLTK, Matplotlib, Seaborn, Plotly, Geopandas

Analytics Tools: Tableau, Power BI, Adobe Analytics, Google Analytics, SiteSpect (A/B Testing), Jupyter Notebook, Microsoft Excel

Collaboration Tools: Git, Figma, Jira, Confluence, Airtable, PowerApps
