Math/CS/DS Education

Math – Cherry Creek High School, CU Denver(dual enrollment), UCSD

Taken 18 and 20C, took Linear Algebra, Multivariable Calculus, Differential Equations, an introductory proofs course, and Real Analysis(Math 3310 at CU Denver) in high school. Also had a semester of self-study, learned and presented on applications of linear algebra to AI, including topics like vector embedding and Singular Value Decomposition. Enrolled in Math 180A and 158.

Computer Science – Cherry Creek High School, online courses

Took APCSP/A and a Java data structures and algorithms course offered by my school, along with a semester of Swift. Took online lessons for Javascript and Python, and have interacted with HTML/CSS in the past.

Data Science – UCSD, self-study

Taken DSC 10 and currently enrolled in DSC 20 and 40A. Attempted a project working with pandas, numpy, matplotlib, and sklearn to find a correlation between diabetes and different risk factors through machine learning.

Activities

Mathematics Club

Member(August 2021 - May 2025)

Competed in AMC, AIME, ARML, UNC math olympiad. Part of the 15-person team that placed first in the nationwide ARML competition's B division. Qualified for the AIME competition every year since 2020. Highest score achieved was 9.

Speech and Debate

Member/Captain(August 2021 – Present)

Competed in NSDA and TOC circuit tournaments. Semifinalist at state in both my 10th and 11th grades. Competed at nationals 10th and 11th grade, placed 34th in 11th grade. Made it to the top of the Last Chance tournament in 11th grade. Now part of the UCSD team.

FBLA

Member(August 2022 - July 2023)

Competed in Computer Problem Solving. Placed 4th in the state, qualifying for and competing in the national competition.

Cybernetics

Member(August 2022 - May 2025)

Discuss the interactions between AI and society, considering the ethics of data collection and of framing the learning process in certain ways. Opportunities to visit and testify at the state capitol regarding AI ethics bill.

Cherry Creek High School Tennis Team

Player(August 2021 - December 2023)

Played JV. Weekly private lessons, practicing in my free time throughout the year.

USACO (United States of America Computing Olympiad)

Competitor(February 2023 - May 2025)

Participating in USACO contests. Took private lessons and was promoted to silver level.

Employment

Mathnasium

Employee(November 2023 - July 2024)

Assist elementary and middle school students with curriculum and homework.

Challenge School Speech and Debate Club

High School worker(August 2022 - May 2023)

Assisted middle school speech and debate program. Judged debates, gave feedback and advice based on performance, and helped kids build their cases.

Service

Denver Math Club

Instructor (August 2021 – May 2025)

Co-host free monthly meetings targeting middle school students interested in learning problem-solving strategies and math topics relevant to math competitions. Develop lesson plans to focus on a specific math topic each month or discuss strategies and what to focus on for an upcoming competition.

Rich Morrow Math Challenge

Head Scorer (August 2021 – May 2025)

Organize the scoring room for an elementary school math competition. Prepare scoring spreadsheet and check answer key before the competition, ensuring everything is ready to go. Instruct student and parent volunteers on how to score, how to use the spreadsheet, and create a system so we can work through hundreds of tests quickly. In charge of getting final results and winners to the overall organizer.

Challenge School Math Club

High School volunteer (December 2022 – May 2025)

Aid my middle school's math club, answering questions and working through practices with them.

Kumon

Volunteer Instructor (May 2021 – August 2021)

Assisted elementary and middle school students with curriculum and homework.

Summer Experiences

California National Debate Institute – Berkeley, California

Attendee (July 2023 – July 2023)

Attended a 3-week policy debate camp, I learned debate strategies, learned many topics relevant to that year's resolution, including economic ideas, researched arguments, and gained experience debating with other attendees.
