

Alan De Luna

Oceanside, CA | alandeluna18@gmail.com | www.linkedin.com/in/alan-de-luna

Education:

University of California, San Diego | La Jolla, CA

September 2024 - June 2026

- B.S. Computer Science

Palomar College | San Marcos, CA

August 2022 - May 2024

- A.S. Mathematics

Experience:

Palomar College Math and Science Learning Center, San Marcos, CA

July 2023 - August 2024

Math/Computer Science Tutor

- Propelled community college students to achieve their academic goals by tutoring and educating them in various STEM fields, including calculus and computer science.
- Increased academic assistance inside the classroom as an embedded tutor and worked alongside professors to prepare in-class activities and lessons.

Guajome Park Academy, Vista, CA

May 2022

Student Blood Drive Co-Leader

- Led semi-annual blood drive, allowing students and teachers to donate blood for people in dire health situations.
- Maintained timely communication with the American Red Cross to understand and ensure proper safety precautions during the event.
- Promoted the event by designing and distributing advertising materials, and facilitating the sign-up process.

Academic Projects:

Alcoholism vs. Homicide Data Investigation:

- Contributed to a team of 4 to investigate the correlation between alcoholism and homicide in the U.S.
- Utilized and processed various datasets and performed EDA, created plots, and wrangled data.
- Applied tools such as Python, Pandas, Seaborn, NumPy, and Jupyter Notebooks for analysis and Github for version control.

Campus Swipe Website:

- Collaborated with a team of 10 to create a UCSD website displaying relevant events on campus.
- Refined the UI design of the website and strengthened the overall aesthetics.
- Completed with HTML, CSS, and Javascript, Github for version control, and Figma for website design.

Country Happiness Data Analysis:

- Coordinated an independent project about analyzing key factors influencing national happiness.
- Implemented machine learning algorithms including k-means clustering to sort countries into groups based on their data.
- Applied Python, Pandas, and NumPy for analysis, data processing, and visualization.

Technological Skills:

Pandas, Python, Seaborn, NumPy, C/C++, Java, Visual Studio Code, MacOS Terminal, data structures, algorithms, and Git/GitHub

Other Skills:

Trilingual (English, Spanish, and German) and Google Workspace Products (Google Docs, Google Sheets, etc)
