

**Cindy Chen**  
(205) 451-6906 • [cyc104@ucsd.edu](mailto:cyc104@ucsd.edu)

## **EDUCATION**

**University of California San Diego, 2024 - 2028 (Expected)**

B.S. Data Science; Minor in Political Science

Activities: Data Science Student Society (Board Member); Associated Students (Fellow); UCSD Guardian (Writer);  
Badminton Club

Grade: 4.0/4.0

## **EXPERIENCE**

### **Researcher**

November 2025 – Present

*VoytekLab, University of California, San Diego*

Working on a machine-learning project developing autoregressive models for image textures, under PI Prof. Bradley Voytek and Ph.D. candidate Ryan Hammonds.

### **Project Lead**

October 2025 – December 2025

*CityPulse*

Lead a data visualization project that translates NYC Open Data into intuitive stories about borough-level quality of life. Presented at DinoCage (the Basement).

### **Researcher**

March 2024 – June 2024

*University of California, San Diego — Spring 2024*

Wrote a paper on China's AI-driven "smart courts" under the mentorship of Prof. Kwai Ng. Received a \$1,000 TRELS grant to design and run scenario-based surveys comparing perceptions of fairness in AI "robo-judges" and human judges through Python analysis.

### **Data & Policy Intern**

November 2024 – May 2025

*Office of Supervisor Joel Anderson, San Diego, CA*

Recorded and organized constituent case data for residents in San Diego's District 2, which includes Alpine, Lakeside, and Spring Valley.

### **Writer & Columnist**

October 2024 – Present

*The UCSD Guardian*

Write opinion and feature pieces on law, technology, and social issues for UC San Diego's student newspaper. Two articles reached #1 on the Trending page; my article *Innocent Until Proven Guilty, Unless You're Blake Lively* was the most-viewed article of 2024.

## **AWARDS**

**Triton Research & Experiential Learning Scholars (TRELS) Grant — Spring 2024**

**Provost Honors — Four consecutive quarters**

**Eleanor Roosevelt College Honors — 2024**

## **INTERESTS**

Writing, chess, cooking (or attempting to) cook, narrowly avoiding collisions on my electric scooter.
