Education

Random University

Master of Computer Science, CGPA - 3.93/4.0

Aug 2021 – Dec 2022

City, ST, USA

Random University

B.Tech in Computer Science, CGPA - 3.8/4.0

Aug 2017 – Jun 2021

City, ST, USA

Experience

Company Inc

Software Engineer II

May 2025 – Present

City, ST, USA

- **Large Files (Azure NetApp Files):** Led the LargeFiles feature from PM requirements through launch and beyond: wrote the functional spec by collaborating with cross-team stakeholders, built and implemented the solution in two phases for new and existing volumes using **Go**, and assisted testing and validation in **Python** to ensure a smooth rollout.
- **S3 Protocol Enablement (Azure NetApp Files):** Contributed to the feature's full lifecycle from functional spec and cross-team design through implementation and testing of **bucket orchestration** and identity mapping and uncovered a critical certificate-validation gap that would have affected 50% of preview customers, driving the pre-GA fix and ensuring a reliable launch.
- **FlexCache (Azure NetApp Files):** Owned the **end-to-end metrics** pipeline for FlexCache designed and delivered Azure billing usage metrics, customer-facing performance metrics, and internal telemetry consumed by billing systems and monitoring dashboards achieving 99.9% usage-metering accuracy and enabling an on-time GA launch.

Company Inc

Software Engineer I

Jan 2023 – Apr 2025

City, ST, USA

- **File Access Audit Logs:** Delivered File Access Audit Logs for Azure NetApp Files, enabling scalable, policy-driven tracking of every NFS and SMB file operation to meet security, compliance, and regulatory requirements.
- Drove development, preview testing, and GA rollout designing and executing large-scale validation tests, identifying a critical scalability gap, and implementing rate limiting for a stable, production-ready release.
- Supported **Microsoft MSI** security sprint delivery by developing managed-identity migration solutions and mentoring teammates on secure identity adoption.
- Introduced **Jaeger** based distributed tracing for detailed API latency insights, accelerating diagnosis and resolution of backend performance bottlenecks.
- Designed and built a scalable **automation framework** to provision and manage volumes, pools, and hosts at scale, enabling production-like qualification workflows. Developed in-house monitoring and alerting services, reducing operational expenses by \$600/month.
- Led migration of on-premises services (**PostgreSQL, RabbitMQ, MongoDB**) to Azure managed offerings, improving platform availability, scalability, and resilience.
- Migrated team's **Jenkins** jobs to pipeline-as-code by checking in Jenkinsfiles, ensuring version-controlled job configs. Also replaced static controllers with on-demand **dynamic agents**, cutting maintenance and resource lock-ups.

Company Inc

Software Engineer Intern

May 2022 – Aug 2022

City, ST, USA

- Developed a Python tool to **detect MongoDB schema changes** and identify missing upgrade handlers.
- Technologies used : Go, Kubernetes, Python, MongoDB, Agile, Git, Jira, Confluence, Jenkins.

Company Pvt Ltd

Software Engineer Intern, Software Development

Jun 2019 – Aug 2019

City, ST, USA

- Developed **end-to-end 2FA authentication** features by building secure Java-based token generation, implementing backend components with JSP, JDBC, and Apache Tomcat, and creating responsive HTML5/CSS3 UI flows while collaborating in an Agile development environment.

Technical Skills

Languages: Python, Go, Shell Scripting, SQL, C, C++, Java, JavaScript (Node.js), Ruby on Rails

Databases: PostgreSQL, MongoDB, Cosmos DB, MySQL, Oracle, Supabase

Cloud & DevOps: Kubernetes, Docker, Jenkins, GitHub, Azure Arc, Azure Managed Identity, Azure Key Vault

Web & Frameworks: HTML, CSS, JavaScript, React, REST APIs, Flask, Express, JSP, Apache, Jinja2, RSpec

Tools & Platforms: VS Code, GoLand, PyCharm, Jira, Confluence

Foundations: Data Structures & Algorithms, Database Systems, Storage Systems

AI Developer Tools: GitHub Copilot, Cursor, Lovable, Bolt, Claude Coding
